"You Thought"

Wasn't i everything you thought i'd be
Didn't we fly away on broken wings
Weren't you there to taste the finer things
You throw them away...you forget about it
It's never over
The wind of summer brings you here
I can taste you in the air
Did we recover...just to give it all away...to another
undeserved
I wait for you
Wasn't i everything you thought i'd be
Didn't we fly away on broken wings
Weren't you there to taste the finer things
You throw it away...you forget about it
Don't forget about it
Another reason to leave us...i don't want to hear
Open ended and alone...i wait for you
Please...lover don't erase the beauty...
Turn around...come back to me
Wasn't i everything you thought i'd be
Didn't we fly away on broken wings
Weren't you there to taste the finer things
You throw it away...you forget about it
Don't forget about it
