A-You love me
But you don't wanna kiss me
You love me
But you only wanna hug me
You love me
But you only get close to me
When no one else is around
So what is your point?

A- What are you gonna do?
When you don't love me no more
What are you gonna do?
When you don't love me no more
What are you gonna do?
When you don't love me no more
And you think...
Infinity equals you
What ever!

M-I start talking to you, baby
But you start walking, baby
I wanna start a conversation, with you baby
But you ignore me baby
With a degree with of hesitation, baby
I though you were my soul mate baby
But you someone's, baby
Now, this will be the end of me, baby

A- What are you gonna do?
When you don't love me no more
What are you gonna do?
When you don't love me no more
What are you gonna do?
When you don't love me no more
And you think...
infinity equals you
What ever!

M-I start talking to you, baby
