When I fall in love
Anything is out of blue
You're looking at my eyes
And you sees in my eyes
This love that belong to me

It's the coldest night
People passing by
You will be the one
That light up my life

When you're close to me
Make me feel alive
Like never before
When my whole world had died

Painful memories lonely places
I had been there a long time
Now I found you where I belong
My whole life will never be the same

When I fall in love with you
Anything is out of the blue
In the dark night there'll be sunlight
And you'll be the destiny that I'm going to

When I fall in love with you
Wish this dream is forever true
Having you right here face to face
Let nobody else come between me and you
When I fall in love

There will be no more
No more lonely night
I'll cry out no more
Love has come ease the pain

Just to touch your hand
Whispering your name
I can feel no pain
Feel myself breath again

Painful memories lonely places
I had been there a long time
Now I found you where I belong
My whole life will never be the same

When I fall in love with you
Anything is out of the blue
In the dark night there'll be sunlight
And you'll be the destiny that I'm going to

When I fall in love with you
Wish this dream is forever true
Having you right here face to face
Let nobody else come between me and you
When I fall in love
