From Chicago to Miami  
Shout New York, shout LA  
Today we take the White House  
And paint it poor man's gray  
From London to Damascus  
Cry Freetown in Marseilles  
Today we take the blue sky  
And paint it poor man's gray  
My mama she done told me  
There's heart and then there's hate  
If one of them is inside of you  
The other one it ain't  
From the alleys on the East side  
Where the train it throws the weight  
Brother take that cheeky smile  
And paint it poor man's gray  
From Berlin to Havana  
From Beijing to Bombay  
Today we take the blue sky  
And paint it poor man's gray
