### "Volcanoes"

I know the place  
But it's all erased  
You can't rectify me

You walk and you talk  
Like it's nothing at all  
But it can't rectify me

I know your name  
For us it's the same  
But it's nothing to me

Oh, never mind me

Going to find me a volcano that's all mine  
Going to buy me a ladder I can't climb  
Fall in love with a woman that I can't find  
Going to find me a volcano that's all mine

Well it's all in here, the wiring's weird  
It's volcanoes I'm looking for  
Born to dive

I know the place  
But it's all erased  
You can't rectify me
