Lost out on this highway
these high beams, they are blinding me
because I would be there if I was a better man

Even at the end of your driveway
I still feel too far away
because I would be there if I was a better man

'Cause I'm hopeless
but I don't know it
I would I suppose if I was a better man

By midnight I'll be there
but I still think you are an amateur

'Cause I'm hopeless
but I don't know it
I would I suppose if I was a better man

Lost out on this highway
the passing cars, they blind me
because I would be there if I was a better man

Even at the end of the hallway
I still feel so far away
because I would be there if I was a better man

'Cause I'm hopeless
but I don't know it
I would I suppose if I was a better man

I'm hopeless
but I don't know it
I would I suppose if I was a better man
I would I suppose if I was a better man
I would I suppose if I was a better man
