I know the place
But it's all erased
You can't rectify me

You walk and you talk
Like it's nothing at all
But it can't rectify me

I know your name
For us it's the same
But it's nothing to me

Oh, never mind me

Going to find me a volcano that's all mine
Going to buy me a ladder I can't climb
Fall in love with a woman that I can't find
Going to find me a volcano that's all mine

Well it's all in here, the wiring's weird
It's volcanoes I'm looking for
Born to dive

I know the place
But it's all erased
You can't rectify me
