Buy in it'll shut you up
Try it, it should shut you up
We've brought someone in to shut you up
It's a life's work

While we were hunting rabbits
I came upon a clear
The sky its stars like fortune drilled me
Until now I was a soldier
Until now I dealt in fear
These years of cloak and dagger
Have left us disappeared

And I dance and I sing
And I'm a monkey in a long line

Buy in it'll shut you up
Try it, it should shut you up
We've brought someone in to shut you up

And it's getting to be light work

While we were hunting rabbits
I came upon a clear
The sky its stars like fortune filled me
Until now I was a soldier
Until now I dealt in fear
These years of cloak and dagger
Have left us disappeared

And I dance and I sing
And I'm a monkey in a long line of kings
And we dance and we sing
And we're all monkeys in a long line

I'm just a boat on the ocean
And I'm just a ship lost at sea
