I'm out on my own, always thinking about you
Such a heavy low I know I'll never be anyone with out you
I just gotta get back. And I laugh out loud, thinking you can hear
But when I look around

No ones ever home when I'm looking for a friend
And when I want to be alone, Everybodys calling I'm playing
for a crowd I only wish it were you. Aint Life Like That

The wind it sings your name, as it rushes through my
hair Its as though your right there I want to see your
face and the beauty of you, I just gotta get back. I
laugh out loud, thinking you can hear But when I look
around

No ones ever home when I'm looking for a friend
And when I want to be alone, Everybodys calling Now I'm
playing for a crowd, I only wish it were you. Aint Life
Like That

oh this space thats come between us is this where I
have to be? oh I want to see your face dance around to
make you smile for a little while aint life like that I'm out
on my own always thinking about you I'm out on my
own I'm out all alone Lost with out you Such a heavy low
