Inside her garden lies the secret in the light
and Iâ€™d love to make her mine
an iris her soul, violet—her heart
the woman Iâ€™ve needed from the start
the woman Iâ€™ve needed from the start

make me a man—show me how to fight
take that woman—make her my bride
show us the new meaning of lives entwined

I am in love, I am in love, I am in love with you
but we got bigger things to do
like chase a new life on the heels of a newfound train
and take on the world with the girl and her new last
name
fight for you—this I can do

When weâ€™ve both grown tired and weâ€™re covered in
scars
I wonâ€™t give up on your heart
please donâ€™t give up on my heart

make me a man—show me how to fight
take that woman—make her my bride
show us the new meaning of lives entwined
fight for me—wonâ€™t you please...
fight for me—wonâ€™t you please...

I am in love, I am in love, I am in love with you
but we got bigger things to do
like chase a new life on the heels of a newfound train
and take on the world with the girl and her new last
name
fight for you—this I can do
fight for you—this I can do

this I can do...
this I can do...
this I can do...
