Chemicals in the sky
Paint it red, paint it white
The Universe's flag to fly

Do you hear screaming tonight?
Silence all their kind
Take this gun and reply

If God is on your side
Does that make it alright
To let that bullet fly
With your nation's pride
If God is on your side
Who am I?

Black - the cause that he rides
And poor - the man that he bribes
For the blood of his wife
Dark-the cavernous womb
Blood is black under the moon
That fear we love is in bloom

If God is on your side
Does that make it alright
To let that bullet fly
With your nation's pride
If God is on your side
Who am I?
Who am ?

So we take what we know
Both the fear and the show
Under promises to both
Allegiances fold

Foreign and domestic
We are enemies the same
Buried in that blood that we spill for our gain
If you are still a prophet then you probably can tell
That I'm not much of Heaven, I am mostly made of Hell
And if you have no intention of your love coming to life

Then let's fire up that f*cker and get out of here tonight
Let's get out of here tonight

If God is on your side
Does that make it alright
To let that bullet fly
With your nation's pride
If God is on your side
Who am I?
