Iâ€™m tired
of faux desires
of makeshift men
and their wires

so give me Loveâ€¦Tangibleâ€¦

I want the truth to breathe
fire inside of creed
open my arms for me
wonâ€™t you please.

Danger
her eyes are craters
and these trying times
make us face her

but no one knowsâ€¦the way back home
Iâ€™m not your maker
and Iâ€™m not your daughter
or the man you want me to be

I want the truth to breathe
fire inside of creed
open my arms for me
wonâ€™t you please
Blushing, the bride to be
when she pulls back her veil, weâ€™ll see
love and eternity
wrapped in rain

wrapped in rain
wrapped in rain
