It's not what it's meant to be
All of the longing and the distance in between

Oh I want you
Living inside a dream
Is there an ending
Cause I can barely breathe
Oh I want you
Here with me

Someday
The story comes true
And while I wait
I'm reaching out to you

Chorus:
Satellites
Moving under the stars tonight
Pulling closer into the light
Two lovers so far
Away
Close your eyes
And imagine I'm in your sight
Sending wishes and taking flight
Lovers will find
A way

Do you feel like you're in control
There is a limit to what gravity can hold
Do you want me
How do you ever choose
Between the present and the future you can't prove
Do you want me
Here with you

Somehow

The story comes true
And while I wait
I'm reaching out to you

Chorus x2
