Do you remember when those three words were said
in late September, one night I can't forget
We tried to feel it all, we couldn't get enough
We watched the stars fall until the sun came oh

You're all that I want, there's nothing I won't
do
This is the perfect moment
Because it's only you... and me...
on the top of the world right now
Oh it's you... and me...
and we're never coming down

Let's take it all in, it's never been so clear
I love this moving into the atmosphere
It's only a dream, girl, look how we made it through
Just close your eyes, love
this time it's only you... and me...
on the top of the world right now
Oh it's you... and me...
and we're never coming down
No we're never coming down

Oh it's you... and me...
on the top of the world right now
Oh it's you... and me...
and we're never coming down

Oh it's you...
oh it's you...
