I got nothing to say, I got nothing to prove to you.
I don't believe what you say, I can't believe what you
said.

Does anybody feel alone?
Does anybody feel unknown?

Its better without understanding
I've got better things to do
Lay off my satisfaction,
A quick chemical reaction
Lie when the inspiration's dry.

I feel nothing inside, I feel nothing inside of me.

Just stop before its too late, just stop before its too
great.

Does anybody feel alone?
Does anybody feel unknown?

Its better without understanding
I've got better things to do
Lay off my satisfaction,
A quick chemical reaction
Lie when the inspiration's dry
