I haven't been a good friend  
For a long long time  
You know I wasn't happy  
Behind the smile

Anywhere you look  
A reason to believe  
But I think of what it took  
To bring me to my proper place

And I haven't been a good friend  
For a long long time  
I haven't been a good friend  
While you've been mine

Now am I by your side  
Or standing in your way  
'cause if this is a sign  
I don't know what it's sposed to mean

And I haven't been a good friend  
For a long long time  
I haven't been a good friend  
While you've been mine

I have seen my perfect day  
I have watched it fade away  
You know I'm fighting to be real  
I haven't been a good friend  
For a long long time  
You know I haven't been happy  
Behind the smile
