Started with a rose, ended up a millionairess queen  
In your new electric chair, sweetly sitting there building  
up steam  
Watch your mind little bit, or you're gonna have to  
make believe

Flew into la, caught a screening of your lifelong dream  
Blew it in la, now you're desperate to create your own  
scene  
But watch your mind little bit, 'cause you're headed into  
the machine

Come to california (come to california)  
Come to california (come to california)  
Come to california (come to california)  
Come to california (come to california)

Come to california, baby let it all hang out  
Come to california, tell us what it's all about  
But watch your mind little bit, 'cause the future is  
beginning now

Come to california (come to california)  
Come to california (come to california)  
Come to california (come to california)  
Come to california (come to california)

But watch your mind little bit, 'cause you're headed into  
the machine

Come to california (come to california)  
Come to california (come to california)  
Come to california (come to california)  
Come to california (come to california)
