The girl's got problems she's dancing for the deaf  
Living with her latest love all vacuumed like the rest  
Hold on to me hold on to me you're going to feel better  
You're just afraid to leave  
Hold on to me hold on to me you're going to feel better  
You're just afraid to leave  
You're just afraid to leave  
The rotten apple of her eye talks junk on weekends  
At a dump called the firefly he's laughing with his  
Friends  
Hold on to me hold on to me you're going to feel better  
You're just afraid to leave

Hold on to me hold on to me you're going to feel better  
You're just afraid to leave  
You're just afraid to leave  
You're just afraid to leave  
Sugar gets bitter she knows to watch her tongue  
That bastard never hit her in front of anyone  
Hold on to me hold on to me you're going to feel better  
You're just afraid to leave  
Hold on to me hold on to me you're going to feel better  
You're just afraid to leave  
You're just afraid to leave  
You're just afraid to leave
