Is it question of commitment
Or a matter of faith
That is dictating how we feel
When you don't know if you have it
But you don't want to wait
To see the face of your ideal

If it's happening you'll know it
Love won't come knocking at your door
If it's happening you'll know it
You won't be searching anymore

Anybody with the weapon and the will to survive
Can you show how you to get it done
If you're ready for the future
That will be in your life*
You'll go from hell to having fun

If it's happening you'll know it
Love won't come knocking at your door
If it's happening you'll know it
You won't be searching anymore

If it's happening you'll know it
You won't be searching anymore

If it's happening you'll know it
Love won't come knocking at your door
If it's happening you'll know it
You won't be searching anymore
