If you're tired of feeling took now darling  
I say we burn it down  
'Cause nothing's worth the tears you're crying  
Without water you can drown

You shiver and you shake  
You take what you can take  
Come down now you're on fire  
It's cold and it's getting dark  
It's getting harder to make a spark  
We're lost but we're not liars

(Everything I want, everything I have)

So we'll say hey, hey, hey, hey, hey, woo hoo  
We'll say hey, hey, hey, hey, hey, woo hoo

The lines are getting long now darling  
Time is getting short  
The sun is dim and the moon is rising  
Like a pool of dirty water

You shiver and you shake  
You take what you can take  
Come down now you're on fire  
It's cold and it's getting dark  
It's getting harder to make a spark  
We're lost but we're not liars

(Everything I want, everything I have)

So we'll say hey, hey, hey, hey, hey, woo hoo  
We'll say hey, hey, hey, hey, hey, woo hoo

We never should have come here darling  
It's all mines and booby traps  
There's something in the way we're living  
That smiles and whispers behind our backs

We'll say hey, hey, hey, hey, hey, woo hoo  
(Everything I want, everything I have)

So we'll say hey, hey, hey, hey, hey, woo hoo

We never  
We never  
We never should  
We never  
We never  
We never should  
We never should have  
We never should  
Come here  
We never should  
Come here  
We never should  
Come here  
Come closer darling
