Every time you see his face
You get annoyed
And if ignorance is bliss
He's overjoyed
And can we talk about that stuff
He calls his hair
But what would happen if one day
He wasn't there

You're caught by surprise
You wake up one day and you realize
The one you want is right in front of your eyes

Every night a hundred guys walk through the door
They take your breath away each time they take the
floor
And they got the busted tux, the killer face
But you're still thinking of that jack ass with a bass

You're caught by surprise
Could you wake up one day and realize
The one you want is right in front of your eyes

You might have a stupid wish or two
Lush and a cavier dream
But are the lifestyles of the
Rich and famous really all they seem

The one that you want right in front of your eyes

You're caught by surprise
You wake up one day and realize
The one you want, the one you want
The one that you want is right in front of your eyes
