"Born In Sin"

Visit "[Born In Sin](#)" on MotoLyrics.com

In the way are several things
And the pain that growing brings
But there's no way to keep it pure
If this I'll make you sure

'cause I was born in sin
I was born in sin

Baby I feel romantic
And I'm just a sick snuff freak
It's so hard to look you in the eyes
'cause you know where I've been

I was born in sin
Born in sin
I was born in sin
Born in

I should try to get her away from you
And destroy the demon in my view
But I like it

I like it

Should of been the first to know
This will be the way I go
But I guess I was the last to see
How I have walked this way

I was born in sin
I was born in sin
I was born in sin

Born in

I should try to get her away from you
And destroy the demon in my view
But I like it
But I like it
I like it
