Started with a rose, ended up the millionairess queen
In your new electric chair, sweetly sitting there building
up steam
You watch your mind little bit, or you're gonna have to
make believe

Flew into L.A., caught a screening of your lifelong
dream
Blew it in L.A., now you're desperate to create your own
scene
But watch your mind little bit, 'cause you're headed into
the machine

Come to California
Come to California
Come to California
Come to California

Come to California, baby let it all hang out
Come to California, tell us what it's all about
But watch your mind little bit, 'cause the future is
beginning now

Come to California
Come to California
Come to California
Come to California

But watch your mind little bit, 'cause you're headed into
the machine

Come to California
Come to California
Come to California
Come to California
