Daisychain

After I'm done, she's gone

After I'm done, she's gone away

The lazy rain

Follows a violent storm

That finally found the form to say goodbye

Do the words rolling off her tongue

Promise to be young

Promise to be younger

Many things

I'll never know for sure

After I'm done, she's gone away

Do the words

Rolling off her tongue

Promise to be young

Promise to be younger

To be younger

Many things

I'll never know for sure

After I'm done, she's gone away

Daisychain

After I'm done, she's gone

After I'm done, she's gone away

She's gonna bathe herself in sunlight
