The further you go  
The farther you've gone  
It doesn't mean you were made to hang on  
And you're falling falling falling  
But you can't let go

Whether you're cold, hot, bottled or not  
This is the day for which you have fought  
And you're calling calling calling  
But you can't get home

And every day takes something away  
Until there's nothing left to say  
No single world can deliver you love  
No understanding no sound from above  
And nothing to do  
It's nothing to you

You picture a time that's other than yours  
As soon as you have said it's hers  
And you act like you believe it  
But you're not so sure

And every day takes something away  
Until there's nothing left to say  
No single world can deliver you love  
No understanding  
[Falling lyrics on ]  
And every day takes something away  
Until there's nothing left to say  
No single world can deliver you love  
No understanding no sound from above  
And nothing to do - it's nothing to you  
The further you go  
The farther you've gone  
It doesn't mean you were made to hang on  
And you're falling falling falling  
But you can't let go

And every day takes something away  
Until there's nothing left to say  
No single world can deliver you love

No understanding no sound from above  
No one to watch you rising up from below  
Telling you secrets you don't want to know  
And nothing to do - it's nothing to you

Nothing to you  
It's nothing to you - nothing to you  
Nothing to do - nothing to do
