Coming back around
Baby, just when I need it
Stuck inside my head
You're a groove to my needle

Got nowhere to go
'Cause you know I don't want to
What's on your mind?
Slip back into bed

I'll pretend not to notice
Open up my eyes
With you already in focus
From our blurry past
No one else needs to know us

You can look me in the eye
'Cause I'm right here
Open up and I will listen

The pleasure is mine, any old time
If I can spend a minute with you
The future is ours, lost in the stars
Tomorrow'd be gone without you

So, baby, tell yourself
I'm the one that you hope for
Ask yourself again

If you know what I'm here for
Tell me once again
That you feel what I'm feeling

Let me look you in the eye
'Cause I'm right here
Open up and I will listen

The pleasure is mine, any old time
If I can spend a minute with you
The future is ours, lost in the stars

Tomorrow forever in view

Something inside
Will always stay the same
Something inside
Will always stay the same

Because there's a heart
That sets our love apart
Our love apart

Let me look you in the eye
I'm right here
Open up and I will listen

The pleasure is mine, any old time
If I can spend a minute with you
The future is ours, lost in the stars
Tomorrow'd be gone without you

The future is ours, lost in the stars
Tomorrow forever in view

The pleasure is mine
Tomorrow forever
Tomorrow'd be gone without you
