Stop what you're doing to me
My love don't want to see
Then, we were young and strong
Now everything is wrong

Did you want me? Did you need me?
Could you not say you believed me?
And our love is in a time capsule

Dream what you want me to be
Come and dig for me
Then we were young and strong
Now everything is wrong

Did you want me? Did you need me?
Could you not say you believed me?
And our love is in a time capsule

Then, we were young and strong
Now, everything is wrong, so wrong

Didn't you want me? Didn't you need me?
Could you not say you believed me?
Didn't you want me? Didn't you need me?
Could you not say you believed me?
And our love is in a time capsule

Let's dig it up
Let's dig it up
Let's dig it up
