Speak to me with your
Sweet voice
And take me through
Another night

(Speak to me with your)
Soft voice
And I will surely
Be alright

If I can close my eyes
Without a fear

Speak to me with your weet voice
(Speak to me with your weet voice)
Near

Hold me
In your warm hand
And I could sleep
With you tonight

(Hold me)
In your warm hand
And I could sleep
With you tonight

And all my earthly cares
Might fade away

If you hold me
In your warm hand
That way

It's as close
As I get to love
As close
As I get to love

Speak to me with your sweet voice
(Speak to me with your sweet voice)
Again

Speak to me with your sweet voice
(Speak to me with your sweet voice)
Take me
Through another night

(Speak to me with your)
Soft voice
And I will surely
Be alright

If I can close my eyes
Without a fear

Speak to me with your sweet voice
(Speak to me with your sweet voice)

Speak to me with your sweet voice
(Speak to me with your sweet voice)

Speak to me with your sweet voice
(Speak to me with your sweet voice)

Speak to me with your sweet voice
(Speak to me with your sweet voice)
