Everybody all around the world  
Stand up all my brothers  
Joining our hands  
United we're stronger  
Fighting for peace  
Caring about our loved ones  
Trusting ourselves sharing our feeling  
Believe me  
(CHORUS:)  
If only I could  
I'd make this world a better place  
If only I could  
I'd make this world a better place

Believe me, believe me, believe me  
I think about the implications  
When alone between the sheets  
When all the huggin' and kissin'  
Is tearing my heart appart  
All people standin' hand in hand  
Celebratin' all different colours  
Joining together sharing their feelings  
Believe me  
(CHORUS)
