Even our future has long gone,
I'm seemingly unable to move on.
I gotta be strong to carry on without you,
or run away, 'coz I don't know what else should I do.

But when your face pops into my mind I really wonder
why couldn't I loose the thought of you
by now.

Chorus

Get off my mind - I just wanna live my life.
Get off my mind - then I could be healed by time.
Get off my mind - for me even the Sun doesn't shine.
Get off my mind, get off my mind.

You shouldn't cost my happiness for life ,
Somebody must be out there worth the try.
I don't want to in circles to run around.
There's someone else new, someone else nice to find.

But when your face pops into my mind I really wonder
why couldn't I loose the thought of you
by now.
