"Believe In Magic"

Visit "[Believe In Magic](#)" on MotoLyrics.com

Hey you, keep giving up
Saying there's no way, to survive the day
Hey you, got to fight
Just to keep the faith, that's the only way
Come walk with me
Let your dreams find a new expression
Wake up your mind to a new direction

If you believe, just believe in magic
Then anything, anything can happen
Open your heart to the magic waiting there

Hey you, can take control
Of your destiny, you hold the only key
Hey you, can touch the sky
Got to reach for more, that's what dreams are for
Don't be afraid go where the spirit leads you
You have it made, it's all waiting for you

If you believe, just believe in magic
Then anything, anything can happen
Trust in your dreams and you'll see your dreams come
true
Follow your heart and it won't mislead you
Look to the stars, follow where they lead you to
Open your heart to the magic waiting there
