Every time I think about the good times, wanna sing  
and shout  
I am the melody, I walk the city wild and free  
Just Keep on getting down, groovin' to the beat around  
My name is "Sam the Jam", let me take you by the hand  
With every step, let's touch the beat  
With the streets alive, the rhythm takes your feet

Breakout  
We're coming out  
Switch on your radio  
Let's break out  
We're stepping out  
Switch on your radio

There ain't no limit girl, you hear my voice around the  
world  
You'll learn to know my name, dancing on the hot  
airwaves  
Come on and listen to, listen to the groove in you  
I'll make your body talk, jamming all your fears away  
It's time to let the thunder roll  
When lightning strikes, it'll surely light your soul

Breakout  
We're coming out  
Switch on your radio  
Let's break out  
We're steppin' out  
Switch on your radio

Turn on to life, celebrate and and come alive  
For your heart can't wait, let the music lead the way  
Her's a groove, good to you  
Let you body talk, let's jam!!!
