### "Burn The Virgin"

Visit "[Burn The Virgin](#)" on MotoLyrics.com

They heard the virgins weeping, down to town square  
we go. there they'll be cleansed by fire, I know yer  
yearnin' to burn the virgin, let's bring the morals back  
to, back to the town we know, nothing is ever sacred,  
my final warning to you I will sing, I've got the time to  
die, I've lost my faith in you, these city lights show me  
what's true and it's time for you and I to die, this city  
eating us alive...

And we're running from the start we the black of heart,  
running from what we can't change, abandon the  
empire and sound the bell bring on hellfire might as  
well, I'll be singin' to the slums... sing with me...

Whores stole the morals laughing, into the ground  
they'll go and I shall be the cleansin taste her sickness  
yeah I get this, and I want you purest virgins, you know  
they need me too, cuz it's been hard to resist, the  
father of lies will die tonight and it's time for you and I  
to die, this city eating us alive, this shithouse is going  
up in flames and I'll never be the same...

And when we sleep we're all so weak because we can't  
shake the sadness it seeps, put on our mask well fake  
it past but you'll never wash my heart away...

Eat your hearts out...
