I used to be so unhappy and so lonely  
Love would come and never stay  
But, that was yesterday  
I was scared to admit I cared for someone  
'Cause my heart would always break  
But, things have changed today

CHORUS:

Darling, did you know that something happened to us?  
Right before the future and right after the past  
Did you smile when you found out what a wonderful  
thing it was?  
We found an everlasting love

I'm glad we'll go through life together  
'Cause when you are by my side  
Tomorrow looks so bright  
I'm sure we'll stay in love forever  
As for all our fears and doubt  
They're all behind us now

CHORUS:

Darling, did you know that something happened to us?  
Right before the future and right after the past  
Did you smile when you found out what a wonderful  
thing it was?  
This love is everlasting

Darling, did you know that something happened to us?  
Right before the future and right after the past  
Did you smile when you found out what a wonderful  
thing it was?  
We found an everlasting love

BRIDGE:

Sharing my love with you as we journey through life  
walking hand in hand  
But our lifetime seems short for a love  
That will last 'til the end of time

CHORUS:

Darling, did you know that something happened to us?  
Right before the future and right after the past  
Did you smile when you found out what a wonderful  
thing it was?  
This love is everlasting

Darling, did you know that something happened to us?  
Right before the future and right after the past  
Did you smile when you found out what a wonderful  
thing it was?  
Our hearts have found a love  
(We found an everlasting love)  
We found an everlasting I
