It's so wrong  
it is good  
shakes me all up  
sets the mood  
when it starts  
all is rising  
like two dawns  
on the horizon

Oh well here I sit  
guess I have to admit  
she's the one that's stronger  
now I can't fight it no longer

Stuff that excites me  
might be slightly scary  
but as long as I don't need  
to keep my distance and feel weary  
it's so much better  
it's so much worse  
but I'll take any lesson  
just to cope with your curse

Oh well here I sit...

yeah
