You've got me on a high
I'm falling through the sky
The summer's here so I
Could leave winter and fly
But what we gonna do?
You leave at half past two
We wasted time today
I guess it has to be that way
That I can make you cry
I can make you...
Cry
Cry
You looked into my eyes
You came as a surprise
You washed me in the shower
It lasted for an hour
But what we gonna do?
You leave at half past two
We waste more time each day
And everything's OK
Except that...
I can make you cry
I can make you...
Cry
(but I really don't want to)
(all the trouble I've gone to)
Cry
(but you make it so easy)
(and it's driving me crazy)
Cry
(but I really don't want to)
(all the trouble I've gone to)
Cry
(but you make it so easy)
(and it's driving me crazy)
Do do do do do do do do
('Cos everything changed today)
Do do do do do do
(if you would let me stay)
Uh huh
Uh huh

Uh huh
Do do do do do do do do
Do do do do do do do do
The summer's here again
(and I don't want to pretend)
And it would change but when?
(I just don't want it to end)
C'os I can make you cry
('Cos everything changed today)
I can make you...
Cry
(but I really don't want to)
(all the trouble I've gone to)
Cry
(but you make it so easy)
(and it's driving me crazy)
Cry
(but I really don't want to)
(all the trouble I've gone to)
Cry
(but you make it so easy)
(and it's driving me crazy)
Do do do do do do do do
('Cos everything changed today)
Do do do do do do
