Waiting on your window pane
My fingers are cold 'coz
I can't feel you anymore
Say it over again
Sing it to myself
You're brave
There's an angel at the end of my see-saw
I'm too scared to knock at all
It's stupid I know but
I don't know you anymore
Say it over again
Sing it to myself
You're brave
If you fall down you can get up for more
Standing in the rain at four
It's stupid I know but
You don't love me anymore
Say it over again
Sing it to myself
You're brave
Though you can't see you can
Heal that sore
Waiting on your window pane
My fingers are cold 'coz
I can't feel you anymore
Say it over again
Sing it to myself
You're brave
There's an angel at the end of my see-saw
