Took justice in their hands
They stole your life away
Will money buy you back
Doesn't matter anyway

[Chorus]
Whoa...
We want a war
Kids want a war
We want a war
Kids want a war with themselves
No time to wait around
For their false promises
What will you let them take
When you have nothing left

Never asked you for this chance
For this life that makes demands
What will they think up next
When they put your mind to test

Lets fight amongst ourselves
You are a nobody
No time to make some sense
Go out and destroy yourself
War today
