You stained my chair  
I stained your dress  
People think we're brats  
But I think we're pretty smart  
CHORUS:  
Monday night by satellite  
I'm walking through your dreams  
Life's so strange when we're together  
But I feel like we're twins  
Oh the will

To carry on  
The time is short  
But I have the time  
(CHORUS)  
If I were to spend my whole life over  
I'd spend it with you  
Monday night by satellite  
I love you  
Monday night  
Monday night  
Monday night  
By satellite
