Feeling down when the autumn has come  
Stormy days and the leaves keep on falling  
I don't like the town when the autumn has come  
Clouds are grey and there's fog outside (Side, side)  
Feeling down when the winter has come  
Frozen feet and the snowflakes are falling  
I don't like the town when the winter has come  
Dirty streets and it's cold outside (Side, side)  
I don't care for a riding sleigh  
Get your share from the rain in May  
Rain in May wipes your worries away  
Take a dose, take off your cloths  
Feel the soft warm spray of the rain in May

Feeling down when the summer has come  
Burning heat, drops and sweat keep on falling  
I don't like the town when the summer has come  
Dusty streets and it's hot outside (Side, side)  
I don't care for a sunny day  
Get your share from the rain in May  
Rain in May wipes your worries away  
Take a dose, take off your cloths  
Feel the soft warm spray of the rain in May

Rain in May wipes your worrying away  
Take a dose, take off your cloths  
Feel the soft warm spray of the rain in May
