Performed by Undertaker

Time is fading away
Life ends in pain
Legacy is gives to the living
Death sustained by the dead
The prophecy of doom
Is called out by man
Human development
Hand in hand
To create a dis aster
To abolish the land
Our abhorrence gives us
A command - to continue
Time is ending
Life is fading
No where to bloom
This is the prophecy of doom
The radiation wave spreads
All man creations
Are the causing of this
Got to stop it from taking place
Slow the pace
Nothing will bloom
This is the prophecy of doom
