INTRO:

Ohh ohh Wahhh
Ohh ooh wah
Lady
Lady
Lady

Make me queasy
Don't speak no sound
I want you to prove it to me in the nude
Addicted to the way you move

Honey if anything ever should change in you
Don't worry I'm standing still
I'm movin' with the right aware

Chorus:
This is the highest cost
Take you and make you off
Lift you and leave you lost
Will you forgive me?
Asked out all over town
Drags you and keeps you down
Two times in a day around
Will you forgive me?

Verse - 1
I can't control the feeling
Girl cause I know you're here
I feel you from the floor to the ceilin'
Girl, I feel you when you comb your hair
Lady, when we lock it low, ahh ahh
We get together it's an overdose
I'm slippin' I'm here I'm on my knees
I feel my heart's about to explode

Chorus

Verse - 2
Baby to tell the truth

When I'm so, I jones for you
When its over, I'm overdue
Girl there's no one as bad as no one as bad as you
(you got me, you got me)
You got me slipping around
With it, around with it (oh why)

You got me sick with this stuff baby
I'm so I'm so in love, I can't come down

Chorus

Bridge

You're my bad habit baby
You're my, you're taking my soul
Down to the level
Can't escape the way you've got me locked up baby
I gotta break from you, break from you
Break from you

Chorus with adlib to end
