1st Chorus:

Lay all night here on top if you want to
I've given all I got every drop don't you want to

verse 1:

Minus my negative
Changed what I thought I would never
Spoke a kiss, verbal bliss
and I was made a much more better

2nd Chorus:

Cause where you touched (was such a no no)
a blush filled plush (I love it oh so)
I love it oh so (it's sweeter than candy)
could all this lust (be a symptom of you)

Lay all night here on top if you want to
I've giving all I've got every drop dont you want to
Never wanting to want you to want
(repeat 1x)

verse 2:

Burn the cold, take the snow
Make July out of December
Light the night in after life
and make this soul a much more better

2nd Chorus:

Cause where you touched (How could you know)
A blush filled plush
I love it oh so much
Could all this lust be a symptom of you

1st chorus and instrumental til end
