Took a high from a low

Took my icy freeze and thawed the cold

An inspired undisclosed

It's a privacy that y'all should know

Never wonder cause I know

Ain't no other got this flow

Lady lover, lady soul

You're my discovered pot of gold

[1] - I found a cure for this

Cococure for this

It's got me pushed on some luxurious

Cococure

It's a happy in a sad

It's a more that's less

It's a glad, drive me crazy (ooh baby)

You're my mommy, you're my dad

Lady lover never go

You're the part of my heart that is soul

[Repeat 1
