In the darknes of the night, a child cries  
She is voodoo but she speaks as she dies  
She said "Mummy don't you cry, please don't cry"  
Oh oh voodoo takes me to the sky

If you leave me comprehend I'll be there  
And when children only... I don't care  
It's the mystery in voodoo style  
We will never forget the voodoo child

In the darknes of the night, a child cries  
She is voodoo but she speaks as she dies  
She said "Mummy don't you cry, please don't cry"  
Oh oh voodoo takes me to the sky
