He's back to our lives facing the beast
With aggression in veins and blood
God of hatred in his soul
Evil master in his eyes

Hell warrior
Devil obsession
Totally kills
In massacre passion

His weapon is a sword of destiny
With an axe in chopped skull
Plucked out tongue should spoil your face
Making very frustrated scars

Hell warrior
Devil obsession
Totally kills

In massacre passion

Faded eyes sinkin' in black
Spreading the stench of rotten flesh
Satan sent him to destroy poor humans
And to rape the animals

Age of darkness has just begun
Distorted creatin shall only survive
Hell warrior
Is there to rule and just to kill you

Hell warrior
Devil obsession
Totally kills
In massacre passion
