Maya- Within
Help me save me
When I need you.

Come on I love you baby

But love is too soon
Can't live with you and never wanted to, so leave me
alone.
Wanna cry, wanna die
Can't say no more
But my life has called an end tonight.

"within" shut the door and leave. GOODBYE.
Wanna cry
Can't say more
'within' tell me I'm ok. Callin up my sista today.
Within help me save me.
Within what can i say
You left by myself and left away
Called me when you needed me
Told me I'll be right
But I wasn't I shouldn't have taken your lies (taken your
lies)
Within" your body wasn't strong enough for the wind
Oh within
What can i say
You left by myself and left away
(left away!!!!!!)
Help me save me.
What can i say.
Youv'e been gone to long and left away.
Within!!!!
OHHHHHHHHHHHHH. Within
