i know youve been sworn
i read you complaint
your needing someone older
and though ive been warned to live day by day
theres something taking over

did you expect to kiss me one time
while looking at me with the same eyes ever again
so come on and face it, so come on and face it
its time that we say it

you can cross the line whenever you want
im calling it love soon
close your mind and waste some time if you have to
im calling it love soon
its not about you now
its what we are

your mother complains that you need a man
you havent mentioned me yet, oh no
and all of your friends dont know who i am
ive been your best kept secret

i understand i wasnt part of the plan
a dollar short, a minute early
but i am your man
so come on and face it
so come on and face it
its time that we say it

you can cross the line whenever you want
im calling it love soon
close your mind and waste some time if you have to
im calling it love soon
its not about you now
its what we are
its what we are

lets by-pass the bull shit
and move on because the minute hand moves faster
than you think it does

and by no fault of yours
and by no fault of mine
the bottom line is laying in
the bed that weve been playing in tonight
weve been playing in tonight

you win, im whipped
its all your fault that i am
i hope you understand

you win, im whipped
its all your fault that i am
because you got the upper hand

this time its not about you now
this time its not about you now
this time its not about you now
its what we are....
