Rise and shine give a stretch and wipe the dreams from  
my eyes close your eyes  
and imagine on a typical day. I sit back and just close  
my eyes and I drift  
away, to a place that's in my mind. I read a book or I  
watch TV it helps me to  
forget about all the little things that I need.

on a typical d-d-d-day d-d-d-day on a typical day when  
i'm falling falling  
behind, these typical ways make lose my worry, lose  
my mind yeah oh oh on a  
typical day.

It's 2 o'clock and all the bed bugs are getting all ready  
to fly and I turned  
over ?? through the night. And i start sleepin' and  
dreamin'. dream about you  
all through the night.

typical d-d-d-day typical d-d-day on a typical day when  
i'm fallin, fallin  
behind these typical ways make me lose my worry, my  
mind. on a typical day when  
I'm falling falling behind these typical ways make me  
lose my, lose my worries  
my m-i-i-nd oh oh typical d-d-d-day typical d-d-day.
