"High"

Long, open road
In the distance I see you
Wait for me
You're my hope and my relief
Saving grace
Remove these rusted chains

Waited so long
To be kissed by lips of God
I'm getting close
Around the bend is solace... home
The sweetest place
I'll be redeemed I will be safe

High, so very high
And I feel ok
Nothing's in the way
So hold on
I'm taking off
I'm gonna fly

Yesterday's gone
I take a look for one last time
My stomach turns
At the thought of that dark world
I won't go back
I'm pushing forward and it's good

High, so very high (I'm flying high again, in liberation)
And I feel ok
Nothing's in the way
So hold on (I'm holding on again, in liberation)
I'm taking off
I'm gonna fly
I'm gonna fly
